

# Lean Six Sigma

## Healthcare Executive

*“Good leaders create a vision, articulate the vision, passionately own the vision, and relentlessly drive it to completion.” Jack Welch*

### Summary

Lean Six Sigma has become a valuable tool in the healthcare industry in large part due to its ability to significantly reduce costs and improve patient care. This training will provide the knowledge and tools to develop & implement a plan of action to rapidly reduce costs while improving quality and reducing errors. Learn what it takes to get your organization on the path of operational excellence.

Using real-life case studies, you will learn various cost reduction methods and how staff core competencies and organizational resources affect cost reduction.

### Specifics
